

The **Master Lock** Company

Property. People. Life.

Certificate of Origin

United States Customs requires Master Lock Company LLC to have a statement regarding the “Country of Origin” for each product that we import. Therefore we need to have this information provided by each supplier.

New Suppliers need to provide an initial list of SKU’s with their country of origin. Each Supplier is responsible to provide certificate of country of origin for each new SKU as they are developed. These SKU’s and descriptions will be on ECO releases.

The ‘Certificate of Origin’ form that must be signed is shown on the next page. It must be provided on your company letterhead. There is also sample information shown. No pricing needs to be shown, only the SKU, the description and the country where the product is produced.

An updated list/certificate should be sent at the beginning of each year to:

kesmith@mlock.com
